

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

"Whereas the Department of State has three times officially stated its disapproval of this convention; first, through the chief delegate to The Hague conference; second, through the State Department's press release of April 15, 1930; and third, in the Secretary of State's letter of June 23, 1931, to the secretary-general of the League; and

MESSAGE CORRECTING CONVENTION REFERRED

The following additional message from the President of the United States, together with a report by the Secretary of State, was referred to the Committee on Foreign Relations, and printed in confidence for the use of the Senate, as Executive E, Part 2, Seventy-second Congress, second session:

To the Senate of the United States:

I transmit herewith a report from the Secretary of State regarding an error which appears in Article V of the convention for the rectification of the Rio Grande, signed at the City of Mexico on February 1, 1933, in that the date of signature of the convention between the United States and Mexico for the elimination of bancos in the Rio Grande from the effects of Article II of the convention of November 12, 1884, is stated to be November 20, 1905, instead of March 20, 1905, the actual date of signature. As is pointed out by the Secretary of State the error is one of fact involving no modification of any stipulation of the convention and should be corrected. As the convention is now in the Senate, the Senate alone can make the correction. I therefore request that in giving advice and consent to the ratification of the convention the Senate do so subject to an amendment as follows:

"In the last line of Article V strike out 'November' and in place thereof insert 'March'."

ERROR IN REFERENCE

With regard to the reference of the nomination of J. F. T. O'Connor, to be Comptroller of the Currency, to the Committee on Finance, which was ordered on the 1st instant, the following statements were made by Messrs. Harrison and Fletcher:

By Mr. Harrison:

"Mr. President, I desire to say that the nomination was erroneously referred to the Committee on Finance. It is my understanding that it should have gone to the Committee on Banking and Currency. However, it was referred to our committee, which took action this morning and unanimously recommended confirmation of the nomination. I say that in order that the chairman of the Committee on Banking and Currency (Mr. Fletcher) will not think we are trying to usurp any authority."

By Mr. Fletcher:

"Mr. President, may I say that I think the nomination was inadvertently referred to the Finance Committee? It undoubtedly should have been referred to the Banking and Currency Committee. I do not want this to be taken as a precedent. There is only one other nomination of the kind that was ever referred to the Finance Committee. The Senator from Virginia (Mr. Glass) then had it rereferred and it was sent to the Committee on Banking and Currency. I merely mention that in passing. I am not opposing the action of the Committee on Finance, but I think it ought to be a matter of record that hereafter such nominations should be referred to the Committee on Banking and Currency."

By Mr. Harrison:

"That is the reason why I made the statement, so that it will not be taken as a precedent."

Mr. Couzens also sent to the desk the following memorandum, which was read by the legislative clerk:

"Stephen B. Gibbons, born Pennsylvania; resident of New York City for the past 28 years. From 1900 to 1912, followed a commercial career, during the major portion of which time he was secretary to the treasurer of a large trans-Atlantic steamship corporation. In 1912 he became private secretary to the Honorable W. G. McAdoo, who, as vice chairman of the National Democratic Campaign Committee, managed Woodrow Wilson's campaign for President that year. This appointment had not the slightest political significance but was made strictly on merit. For the next 2½ years he was employed by the board of estimate and apportionment of New York City in reclassifying and regrading titles, salaries, etc., of the civil service employees of that municipality. As in the case of his appointment by Mr. McAdoo, this appointment was made without political consideration by the Honorable Charles A. Hervey, then deputy comptroller of the city of New York, on the personal recommendation of Mr. Julian Beatty, at that time secretary to the Honorable George McAmeny, president of the Borough of Manhattan. During the 1916 New York gubernatorial campaign he acted as one of Judge Seabury's secretaries, accompanying him on his tour of the State. From 1916 to 1926, inclusive, he was an income-tax examiner for the Bureau of Internal Revenue in New York City. He resigned, and from 1926 to 1932, inclusive, has been engaged in the general practice of accounting and tax consultant in New York City. He has never practiced before the Bureau of Internal Revenue and has never applied for a license to do so."

On the question,

Will the Senate advise and consent to the said nomination,

It was unanimously determined in the affirmative.

So it was,

Resolved, That the Senate advise and consent to the appointment of the above-named person to the office named, agreeably to his said nomination.

Resolved, That the Senate advise and consent to the appointment of the above-named person to the office named, agreeably to his said nomination.

(This convention was concluded in pursuance of the joint resolution of Congress approved May 28, 1928, and omits any reference to naturalized citizens.)

NOTE.—See Ex. E, pt. 2, 72d Cong., 2d sess.

Executive E, pt. 2 (72d Cong., 2d sess.):

A message from the President of the United States regarding an error which appears in article V of the convention for the rectification of the Rio Grande, signed at the City of Mexico on Feb. 1, 1933, in that the date of signature of the convention between the United States and Mexico for the elimination of bancos in the Rio Grande from the effects of article II of the convention of Nov. 12, 1884, is stated to be Nov. 20, 1905, instead of Mar. 20, 1905, the actual date of signature. As is pointed out by the Secretary of State, the error is one of fact involving no modification of any stipulation of the convention, and should be corrected. As the convention is now in the Senate, the Senate alone can make the correction. I therefore request that in giving advice and consent to the ratification of the convention the Senate do so subject to an amendment as follows: "In the last line of article V strike out 'November' and in place thereof insert 'March.'"

Apr. 10, 1933, referred-----

39

NOTE.—This is not properly a treaty or even a protocol, as it merely suggested an amendment to correct clerical error in date. See Ex. E, 72d Cong., 2d sess.
